

# WBCSD: PACT Internship

---

## Overview

WBCSD is a purpose-driven, forward-thinking and action-oriented organization, characterized by diversity of gender, nationalities and work experiences.

We are looking for people that share our passion for sustainability and our values to achieve our vision of a world where more than 9 billion people live well and within the limits of the planet by 2050. WBCSD staff are encouraged to take ownership in a demanding work environment which also offers flexibility and autonomy. At WBCSD, we promote diversity, equality and inclusion by offering diverse opportunities and a great exposure to the business world.

Together, we are the leading voice of business for sustainability, with a mission to accelerate the transition to a sustainable world by making more sustainable businesses more successful.

PACT (Partnership for Carbon Transparency) is dedicated to driving and accelerating a global shift towards low-impact value chains. Established in 2021 and hosted by the World Business Council for Sustainable Development, PACT has published a pioneering methodology and data exchange protocol which enable organizations to calculate and exchange consistent, comparable and granular data, creating transparency on the impacts of their products and enabling carbon-informed decision-making across value chains in all sectors.

Bringing together over 150 leading stakeholders from the ecosystem, PACT promotes collaboration, innovation, and accountability through its work, empowering organizations, governments, investors, and individuals to take meaningful action to decarbonize.

In 2024, PACT is focused on refining its standards, providing comprehensive support for corporate implementation (including in particular smoother onboarding and operational guidance) – building on a successful Implementation Programme in 2023 which saw ~1000 companies engaged in exchanging product carbon footprints - and broadening its technological capabilities. The objective thereby is to grow and scale its offering and reach, ultimately making corporate transparency a non-negotiable.
